ONLY ONE VOTE CAST AGAINST FROM LEADERS AND RANK AND WILSON'S NOMINATION.

Collecum, St. Louis, June 15.—Pres-dent Wilson and Vice President Mar-inall were nominated by acciamation conight by the democratic national convention, the ticket being completed four minutes before Friday. Contrary to expectations, however, the convention did not finish its work because the platform was not ready

platform had finished it but that the entire resolutions committee was not assembled to pass on it and it was not known when that could be done. President Wilson's plank charging conspiracy among some foreign-born citizens for the benefit of foreign powers and denouncing any political party which benefits and does not repudiate such a situation, was incorporated in the platform just as the president had sent it from Washington. It was understood the president insisted the plank should be put in the platform in the way he had drawp it.

Never Any Doubt.

There was never any doubt of President Wilson's nomination tonight but there was a possibility that some vice presidential booms might be brought out in opposition to Vice President Marshall. They melted away, however, when the convention got in session and as soon as President Wilson's nomination had been made by a roaring chorus of acclamation, Senator Kern, who renominated Mr. Marshall, cast aside a long prepared speech and simply declared:

"I nominate Thomas Riley Marshall, of Indiana, for vice president."

To President Wilson's nomination there was only dissenting vote, Robert Emmett Burke, of Illinois, who came to the convention announcing that he was opposed to the president. His vote technically made the president's nomination 1,091 to 1.

St. Louis, June 15.—Leaders of the woman suffrage movement have spent the last four days in St. Louis in behalf of a platform declaration for federal action to secure the ballot for women were disappointed tonight when they learned that the resolutions subcommittee of the democratic national committee had agreed upon a suffrage plank recommending that the question be at once submitted to the people of the various states by their legislatures. Members of the sub-committee refused to divulge the text of the plank, but suffrage leaders declared that reports to them were accurate and announced their intention of taking the fight back to Washington and resuming their efforts to have congress act on the Susan B. ARMY TRANSPORT IN READINESS AT GALVESTON

Reply to Carranza Refusing to Recall American Treops.

Washington, June 18. — Secretary Lansing's draft of the note which will refuse General Carranza's demand for withdrawal of American troops from Mexico was laid before President Wilson for his approval today almost simultaneously with receipt of news of another border raid in which the camp of the Fourteenth Cavalry at San Ignacio, Texas, was attacked and three troopers killed.

Border Commanders Given Power. Border Commanders Given Power.

Punitive steps against those responsible for the new depredation were left to the discretion of the border commanders, whose standing orders are to pursue into Mexico any hot trail that they find. The development, however, was called to the attention of the de facto government and will be one of the elements on which the administration, in its reply to Carranza, will predicate its declaration that the time for withdrawal is not yet ripe because Mexican troops are not properly policing the border country.

Steps to Protect Americans.

Anti - American demonstrations throughout the republic, which will also back up this declaration, have worked with the growing seriousness of economic conditions to produce such a grave situation that officials here fear a new internal upheaval soon and have taken further steps to protect Americans. An army transport is being held in readiness at Galveston to proceed to Mexican ports for refugees, another has been ordered to the vicinity of the Mexican west coast and the navy transport Hancock, now taking marines to Santo Domingo, will go from that port to Vera Cruz as soon as the has completed her present mission. The friendly purposes of the United States are understood to be set forth in unmistakable terms and it is believed the note also contains a sharp rebuke because of suggestions in the Carranza note which gestions in the Carranza note which many officials regard as insulting.
